

"Consulting with Confidence" SCA Preparation Course For GP Trainees

Friday 20th November 2026, 9am - 4:30pm

Are you a GP ST2 or ST3?

Are you feeling uncertain about your chances of success in the SCA exam? Do you feel you need some focused exam practice in a supportive environment to reduce some of the element of chance for you?

"Preparing for the SCA isn't about reading more — it's about practising how you consult."

This interactive one day course will be delivered online via Zoom. It will offer GP Trainees the chance to practice realistic SCA-style consultations, work in small supportive groups, and receive targeted feedback from actors and experienced GP educators — including current RCGP examiners.

Facilitated by Dr Andy Eaton
GP Educator & Director of
Tempus Education & Training

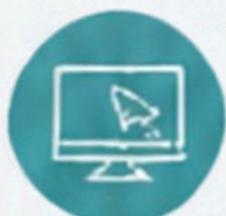

Cost: £295 day rate (discounts available for groups of 5 or more - please enquire)

PLUS AS AN OPTIONAL EXTRA

For an additional £225, an optional one hour coaching session can be booked to take place during the day with an actor and facilitator, for those wanting more bespoke practice and 1:1 feedback during the day.
